Our vineyards are located in the Lima Valley in the North of Portugal, bordering Galicia, Spain, to the North the Atlantic Ocean to the West. Our region is often associated with the green of the natural landscape. It is a region of deep valleys crossed by clear water streams and a rugged terrain of enormous beauty and biodiversity. This unique and traditional landscape is marked by small vineyards and quaint villages.

The cooling influence of the Atlantic Ocean and the granitic soils produce elegant wines with delicate aromas and freshness. Winemaker, José Oliveira has been working in the region for more than 20 years.
